Tulis Watercolor Supply List

watercolor brushes

sizes: round #2, #6 or 8 and # 12

(Note: do NOT buy the Artist Loft Michaels store brand.

Simply Simons watercolor brushes are good and reasonably priced)

Sable brushes are recommended, especially for the size 8. A way to test if the brush is good quality is to dip it in water and flick it. If it forms a nice point, its a good brush.

watercolors

(in tubes or palette set: Winsor & Newton student or professional grade tubes)
